## Concerning The Local Boundary Commission,

We found the report prepared and submitted by the Local Boundary Commission to contain significantly outdated and inaccurate information. The report was neither complete nor clear enough for proper consideration. We insist that the Commission revise its report.

Mandatory Boroughization is a threat to our local governing system. It would decrease local as well as individual opinion as a bases to affect changes in our community.

Mandatory Boroughization would also threaten our already toppling economic stability by forcing taxation upon the homes and properties we have worked so hard to aquire.....

We therefore oppose the Mandatory Boroughization, Unification, or Consolidation on Prince of Wales Island. Signed,

Amy J. Jennings and Jason M. Jennings
